## Counter Terrorism Policy

There is a serious and sustained threat from terrorism to the UK and UK interests overseas. This threat has changed as recent attack methodology has favoured low technology, high impact tactics without warning.

We at Counter Security Services Ltd have a duty to protect our staff and help our customers protect their staff. As members of the different communities, we each have a duty to protect the general public and support the relevant emergency services, counter terror agencies and other organisations whose principle aims are to protect UK citizens and their interests both at home and overseas, and of course, our family and loved ones for whom we all have a lifetime duty of care.

In order to make a difference, Counter Security Services Ltd has developed the following principles that will form the basis of our Counter Terrorism Policy. These 4 principles are:

**Communication and Awareness** – Counter Security Services Ltd will regularly communicate information on counter terrorism related subjects, both for increasing awareness and updating our staff, customers and other interested parties on matters that might affect their welfare and safety. We will utilise our internal communication network to send out regular bulletins and to encourage discussion and interaction within the Counter Security Services Ltd family.

**Collaboration and Partnerships** – Counter Security Services Ltd has nominated a management representative for counter terrorism. The role has been created to increase our knowledge in counter terrorism and to support our customers and their staff through collaboration with the emergency services, national agencies, business forums and industry bodies to help deliver initiatives to support our aims. Where appropriate, we will work with our suppliers to deliver initiatives. Partnership working is key to Counter Security Services Ltd achieving its intended outcomes and, from time to time, internal focus groups may be established within Counter Security Services Ltd to deliver particular Counter Terror initiatives.

**Training and Understanding** - Counter Security Services Ltd will endeavour to deliver Project Griffin training to our staff. Project Griffin is a modular based training initiative to support our national aims for counter terrorism. Counter Security Services Ltd will roll out the training for our staff in a planned and structured manner. Other counter terror training will be delivered as and when appropriate by the Counter Terrorism Management Representative.

## Counter Terrorism Policy

**Reporting Suspicious Behaviour** – Counter Security Services Ltd will train our staff to recognise suspicious behaviour and activity and empower them in the reporting process. Counter Security Services Ltd understands that suspicious behaviour is not just an external issue in a particular crowded space, but could occur internally through our staff, through the customer's staff or through our supply chain. Counter Security Services Ltd will ensure that reporting is completely confidential, anonymous if desired and with due regard to existing policies. Staff will be given the relevant tools, contacts and information to enable them to effectively report suspicious behaviour, if it occurs.

Counter Security Services Ltd believe that by implementing this policy we can make a difference by enabling our staff and those affected by our activities to have a better understanding and awareness of terrorism and the catastrophic outcomes it brings to all communities.
